

CUT RED TAPE AT TRAINING CAMP

ONLY MOST NECESSARY FORMALITIES REQUIRED FOR CAMP GRANT.

Only the most necessary formalities will be required of candidates for the Citizens' Military Training Camp at Camp Grant, which opens July 21 and closes August 20. The War Department has just issued the regulations that will govern and the requirements are such that any able bodied young man, of good habits can attend. This camp will be free in its fullest sense, the Government paying all expenses going and coming, and will furnish meals, uniforms, and laundry while in attendance.

The War Department intends to show the country at large by actual example that camp instruction of the kind contemplated will be to the liking of their sons, will develop them physically, mentally, and morally; will teach Americanism in its true sense, thus stimulating patriotism and self-discipline, resulting in greater national strength, both civil and military. The camp will also qualify young men for service in the reserves. While the primary motive is to instill patriotism and love of country, which means service of country, ample recreation of an entirely healthful and strength building nature is to be provided. Outdoor games of all kinds are to be arranged and it is planned to have many competitions in all the better known sports. With the Rock river adjacent to camp, swimming and boating will be a matter of course. Ample provisions will be made, and relatives of the men attending camp are urged to make their sons a visit sometime during their encampment. The idea being to create and stimulate in the minds of the people the need for some form of voluntary service to the Government, and at the same time in such a manner as to benefit those participating in a direct and substantial way. No claim is stronger than its weakest link, and no country is stronger than its citizens. The younger generation particularly, are those that show in their attitude to their Government the real national strength.

Applications already filed at 1224 Ford Bldg, Detroit, Michigan, indicate that the allotment for this territory will soon be exhausted, and that the plan is a success. Larger camps are to be planned for the future, that all who appreciate their duty to themselves and to the country in which they live may avail themselves of the opportunity to spend a month in the open.
